

CASE STUDY

eLearning Management Solution for CLE (Continuing Legal Education)

ABOUT CLIENT:

CLE course certificates are essentials for the Lawyers as a mandatory legal compliance. Hence, the key requirement was to generate course completion certificates based on the User's time zone. Client offers cross-platform lessons in the form of recorded video courses, live lectures, and lectures via teleconference.

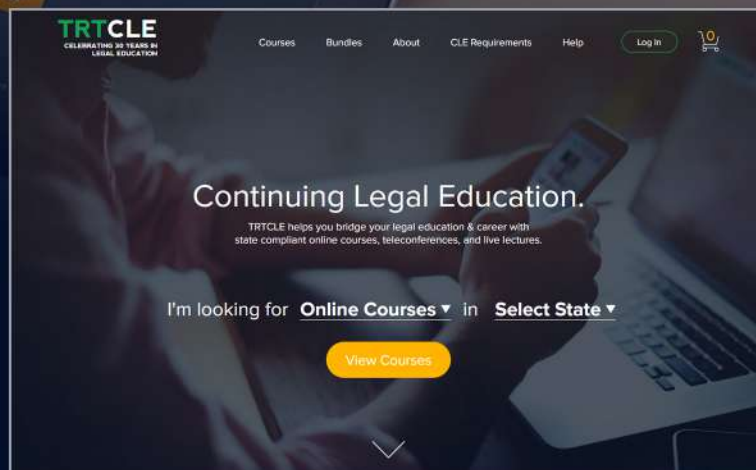

They enable legal professionals to learn on their terms with offerings tailored specifically to the needs of each state in compliance with the BAR standards and designed with CLE requirements in mind.

CHALLENGES

- ✓ Comprehensive report generation on specific lawyers was not available in the earlier system.
- ✓ They needed a state-specific certification system that abided by the standards set by the BAR council.
- ✓ Additionally, real-time course completion tracking was not possible in the earlier system.
- ✓ Managing a huge amount of data on a single server as causing downtime and loss of time creating critical legal hurdles.

What Our Client Says

They are very fast, and the team is big enough to tap on each other's expertise. We are working together from last 16+ years.. ”

OUR SOLUTION

- ✓ We developed a stable architecture, devops pipeline and migrated the system on cloud for scalability.
- ✓ We migrated the entire system from CI to Laravel that offers a version control system that helps with simplified management of the entire migration process.
- ✓ We created a simple sorting and report generation option that offered a complete list of completed courses and certifications by a specified lawyer.
- ✓ The client stores and manages an enormous amount of information on its servers due to which we had to split the workload on multiple servers and made the experience for both the client and their users seamless with considerably low downtime.

BUSINESS IMPACT

- ✓ With a scalable IT platform, client could grow his business resulting in 12000+ active users.
- ✓ Furthermore, the Automated report generation helped client save a lot of time wasted in tedious efforts to collect the data manually. Which eventually reduced the time required for the legal process of vetting the Lawyers.
- ✓ While supporting the American government with Continuing Legal education, client was able to generate a hefty \$300K profit yearly.
