PROJECTS

Project Title: Secure Data Retrieval for Decentralized Disruption Tolerant Military Networks.

In military system environment, associations of remote gadgets conveyed by officers may be briefly detached by sticking, ecological variables, and versatility, particularly when they work in hostile environments. We implemented a Disruption Tolerant Networks(DTN) technologies that authorize nodes to communicate with each other in these immensely networking environments.

Front-End: Java

Back-End: MySQL

My role: Designer

MINI PROJECT

1.Project Title: Image compression and decompression.

The objective of image compression is to reduce irrelevance and redundancy of the image data in order to be able to store or transmit data in an efficient form. The purpose of image compression is to represent image with less data in order to save storage cost or transmission time.

Language- Java
